

ΣΥΛΛΟΓΟΣ ΠΡΟΣΤΑΣΙΑΣ & ΠΕΡΙΘΑΛΨΗΣ ΑΓΡΙΑΣ ΖΩΗΣ

Caring for big raptors: the experience from Greece statistics, diagnosis, intensive care

Anna Kazazou: Member Scientific Board and Animal Management and Welfare team (ANIMA) Bird curator - Conservation action leader (EAZA-Attica Zoological Park)

ANIMA

An NGO focusing on rehabilitation of wild animals Operates the main First Aid Station for wildlife in Greece

ANIMA

Each year:

- We rehabilitate 3.000-4.000 wild animals -35.000 in 14years
- Respond to thousands of citizens for issues concerning wildlife
- **Recruiting hundreds** of Volunteers
- 150 Volunteers today

Annual Admissions

ASSOCIATION FOR THE PROTECTION AND WELFARE OF WILDLIFE

Good and successful collaborations with:

✓ NGO'S
 ✓ Forestry department
 ✓ Authorities
 ✓ Universities
 ✓ Stakeholders

ANIN

Good and successful collaborations with:

 ✓ Greek Hunting association
 ✓ Instant Action and Fire Department and
 ✓ any organization or individual

.....in order to address threats to wildlife

ANIMA and Vultures

• 164 Vulture admissions

- 154 Griffon vultures
- 4 Egyptian vultures
- 4 Cinereous vultures
- Mostly young birds

Admissions causes:

- Birds poisoned
- Young-lost
- Electrocution wind turbine
- 95% from Crete
- 5 West cost Messolonghi

Egyptian Vulture

Neophron percnopterus Admission causes for the period 2005-2017 4 cases

ΣΥΛΛΟΓΟΣ ΠΡΟΣΤΑΣΙΑΣ & ΠΕΡΙΘΑΛΨΗΣ ΑΓΡΙΑΣ ΖΩΗΣ

Cinereous vulture

Aegypius monachus Admission causes for the period 2005-2017 4 cases Exhaustion 25% Accident 75%

ASSOCIATION FOR THE PROTECTION AND WELFARE OF WILDLIFE

Gyps fulvus

Young weak birds are gaining strength

ANIN

Admission causes

Bubo bubo

ASSOCIATION FOR THE PROTECTION AND WELFARE OF WILDLIFE

Pandion haliaetus

Pandion haliaetus

Buteo rufinus

Aquila chrysaetos

3 birds in total

ASSOCIATION FOR THE PROTECTION AND WELFARE OF WILDLIFE

Aquila pennata

Aquila fasciatus

Pernis apivorus

77 Birds in total

Aquila pomarina

Circaetus gallicus

Important points leading to better diagnosis

 Primary feedback comes from the area the animal was found (region, time of the year, species, symptoms)

• Drawing from previous experience we can assume with high accuracy the first diagnosis of each incident

- The average people not able to deal with the birds found
- Training (first aid) key people in important areas with high activity

• First aid : serenity, darkness ,fluids , decrease stress

ΣΥΛΛΟΓΟΣ

• First aid station: Physical examination

• Our vet team - Vet clinic : x-ray , blood test, surgeries, ultrasound

• Keeping all historical data per incident

 Lack of reliable labs: microbiology and histology = Un-definitive diagnosis

ASSOCIATION FOR THE PROTECTION AND WELFARE OF WILDLIFE

First aid station

Quite / restricted holding area
 Darkness
 Fluids
 Decrease stress
 Providing primary treatment
 Intensive care
 Hands on
 Tube feeding

Accidents and shooting

For all big raptors except young griffon vultures **X-ray** is needed

ΣΥΛΛΟΓΟΣ ΠΡΟΣΤΑΣΙΑΣ & ΠΕΡΙΘΑΛΨΗΣ ΑΓΡΙΑΣ ΖΩΗΣ

Electrocution - Car accident-Wind turbine

Poisoning

Birds poisoned due to poisoned carcass consumption:

- Body score condition is good
- Weakness
- Spasms

First aid is crusial

Providing liquids and water ,vitamin B and cortisone and some times antibiotics

Blood examination is needed

Weak young birds

When a reason is not obvious

Thank you all for your attention!

ΣΥΛΛΟΓΟΣ ΠΡΟΣΤΑΣΙΑΣ & ΠΕΡΙΘΑΛΨΗΣ ΑΓΡΙΑΣ ΖΩΗΣ

Treatment and recuperation: things to note Anna Kazazou, Member Scientific Board and Animal Management and Welfare team (ANIMA, Greece)

	Stage one :	Intensive care - unstable		
		✓ Drip(fluids)		
		✓ Tube feeding	High	
		 Weight check 		
		 Restricted space, light and noise 		
		 Medication : oral or injectional 		
		✓ Post-surgery recovery		
		✓ Hands on		
	Stage two:	Secondary treatment - Out of danger		
1 per			Stress	
1		 Body score condition check 	level	
10		✓ Less hands on		
		 Eating /drinking alone 		
110		✓ Medication : oral or injectional		Still
1.00	Stage three:	Recuperation - to be released		
		✓ Moving to bigger space		
		✓ Reducing hands on/contact	Low	
~		 Increasing physical condition 	Aller St	200
		✓ Whole prey feeds		hai

First and second stage treatment at the station
